Approved For Release 2009/02/23 : CIA-RDP80-00810A001000620009-3

- e. (Fnu) Akhnazarov or Akhnazarov. Third Soviet General Director, early 1949 - 1951. [redacted] 25X1
- f. (Fnu) Matveyev. Fourth General Director, successor to Akhnazarov. Arrived at Leuna in 1951 and remained in this post until September 1952. [redacted] 25X1
- g. (Fnu) Semenyekov. Present Soviet General Director, from September 1952 to date. [redacted] 25X1
- h. (Fnu) Krutshkov. Deputy to the current Soviet General Director. [redacted] 25X1
- i. (Fnu) Proklin. Chief Mechanic for Leuna from 1948-52. In 1952 he was replaced as Chief Mechanic by (fnu) Pletshevenko, but remained at Leuna and placed in charge of supervising fulfillment of Soviet reparations orders for hairpin tubes (Haarnadeln). Proklin is mainly concerned with expediting plant fulfillment of stipulated delivery date. [redacted] 25X1
- j. (Fnu) Sobolyev or Sobolev. Special Deputy to the General Director in charge of Reparations Orders for hairpin shaped tubes for steel furnaces (Haarnadeln). [redacted] 25X1
- (1) (Fnu) Chuganov or Tschuganov. Acceptance Engineer; metallurgist; serves as the metallurgical consultant in inspections, but Kuprianov makes the decisions. [redacted] 25X1
- (2) (Fnu) Kuprianov. Acceptance Engineer. He first came to Leuna in 1951, at the time the first order for delivery of 180 hairpin tubes was received. Upon arrival he was assigned to the Acceptance Section as a trainee to replace Chuganov and was not considered an acceptance engineer. He has since replaced Chuganov, and has the final decision in acceptance inspections. Still at Leuna as of 28 February 1953.

(3) (Fnu) Smichyaev (Phonetic spelling [redacted] Smichjaev).
The German staff presumed Smichyaev to have been the Chief Acceptance Engineer for the first reparations order for 180 hairpin tubes. He left Leuna when the first order was completed and delivered in 1951. 25X1

(4) (Fnu) Kabanov. Metallurgist and acceptance engineer for the first reparations order. He left Leuna at the same time as Smichyaev.

k. (Fnu) Dmitriyev. Soviet Head of the Payroll Section. 25X1

l. (Fnu) Safronov. Soviet Deputy General Director for Research Matters. Chemist. 25X1

m. (Fnu) Greshov. Soviet Deputy Director for Procurement. His office is located in Bau #24. He has been at the plant since at least 1946. Still there as of 28 February 1953. 25X1

3. Interpreters used by the Soviets:

a. Dipl. Eng. (Fnu) Walter, interprets for Sobolyev on reparations orders. Is in charge of the power installations. His office is located in the west wing of Bau #24, Room No. 276.

b. (Fnu) Hermann. A Balt. 25X1

4. In 1952, a Russian University Professor from Moscow visited the Leuna plant for a period of approximately six weeks. He returned to the USSR about the end of September. It is thought that his name began with the letter "A". The Professor was a metallurgist and had twice been awarded the Stalin Prize for his work. 25X1

1/ Comment: This is Nikolai Batmanov, reported page 67, Soviet Men of Science as Director General Leuna Plant, Merseburg until 1948. Chemical Engineer; in Moscow since 1948.
